WHY ARGUS SHIPPING?

One could find so many reasons to select our services at ARGUS SHIPPING WLL. One would be the dealing of our staff and their knowledge in the concerned areas. One another reason may be the Competitive rates maintained by our office for clients all over the world. ARGUS SHIPPING WLL has been very insightful in understanding the requirement of strong alliances across the globe and hence we have been successful in establishing a very strong network around the world for any of your transportation needs via Air, Sea or Road. All our services, tailored to your needs, we combine our strengths in sea, air, and road with the best warehousing capabilities and distribution network to maximize your productivity and keep your costs to the minimum.

SERVICES

1. SEA FREIGHT

We have different kinds of effective solutions and competitive rates for the clients who required sea freight from various destinations and for different ports in the world. Our special rates and selection of vessel schedules are famous among the community of overseas business entrepreneurs. Apart from providing the special rates and prompt schedules, our performance in ex-work services in almost all destinations in the world is becoming an essential service for our clients. The clients and our well-wishers know that our tremendous performance in both the port loading and port of discharge as an ex-work performer is due to the long-lasting relationships that bonded in between us and more than two thousand associated offices around the globe. Our main difference from the other forwarding companies in the region is that we are specialized in all logistic related activities within a Single Platform.

2. AIR FREIGHT

www.argusshipping.co

We know that the main priority of the client who needs air freight services is bringing the shipment or sending the shipment within a short time limit. Time-sensitive shipments demand excellence in airway bill documentation and other supporting services. Our well-trained staff who are holding the FIATA, IATA and DGR certifications and trained under various airport cargo divisions are equipped to handle any kind of air shipments from DG goods to live animal. Our supportive systems like transportation from the airport to the doorstep, labour support for unloading and loading, crane, forklift, refrigeration unit vehicles, the presence of staff for managing the approvals from different ministries functioning in airport whether it is the ministry of environment and chemicals or it is the ministry of standards. In case of air export shipments, our certified warehouses that equipped with special ramps and forklifts for air shipments plays a vital role in the areas such as managing time as per the airline timing, packing and labelling. The aforesaid supportive systems like warehouses, sophisticated lifting equipment are the backbones for our much-appreciated import and export air console shipments. Our value-added services like door to door and Airport to door services are well established among our clients and associates all over the world.

3. DOOR TO DOOR CONSOLE IMPORT / EXPORT SHIPMENTS AIR & SEA

ARGUS SHIPPING's rich experience and expertise help clients with the most extensive and convenient logistics services with a unique door-to-door delivery service. Our customer satisfaction gives us the pleasure to take adequate care in the process of delivering the shipment to the client at his doorstep. If ARGUS is handling your cargo, you need not worry about loading, unloading at the port, storage or road transport to reaching the final destination at your doorstep. ARGUS's experienced staff handles everything from loading, to delivering at your doorstep and in between keeping you updated about the status of the shipment.

Our per CARTON/per CBM door to door console movements from China, India, Turkey and other all Middle East countries are the client-friendly modes, specialised for the clients who deal with a small volume of shipments. Our pickup and delivery services that functioning in every port of loading country provides our customers with an easy hand to collect the shipments from various parts of the sourcing country and bring it to their store. Our Mega warehouses in Guangzhou, YIWU, Mumbai, Bangalore, Istanbul, Dubai and Bahrain are the existing examples for the perfect warehousing spaces with an international standard.

4. VEHICLE LOGISTICS

We have a unique combination of talented experience, industry-leading software and systems, and a network of partners and resources to deliver customized solutions to the world's leading automakers.

Our Vehicle Logistics Solutions offering timely and safe movement of your consignment with its state-of-the-art technology and modern fleet of trucks and trailers. We are maintaining the most efficient vehicle logistics networking and fully functional warehouses specialized for the cars. Our world-class vehicle export /import team includes a list of members from lashing experts to documentation specialists.

5. COURIER / PARCEL

Argus can ship your parcels from any part of the country to your desired part of the world. Not only that we can courier your parcels, but we can also parcel it from major destinations to your home as well in a speedy, safe and secure manner. We reach right at your doorstep at your desired hour, pick and pack your parcel and the ship it to the desired destination.

Delighting our customers with our international courier service, both corporate and individuals, with each courier and parcel delivery, Argus specialised in all mode of couriers including documents and non-document categories. We understand that your parcels are more than just a courier for you. The courier service delivery is sometimes so crucial that it can make our break the future of someone. Even if it's something as small as a pretty dress for your grandchild, or something as large as a box of medicines, we are the best solution providers you would want to experience.

6. WAREHOUSING

Argus offers every combination of warehousing solution that your supply chain might require, including ambient, temperature-controlled, raw materials, finished goods, automated etc. Customers are assured of secure, expiry reporting, weather-proof goods with advanced material handling systems, bar-coding (need-based), scientific stacking, daily Inventory update, web access portal, live data on real-time and tracking of your shipment.

Our warehousing services help customers minimize losses due to theft, leakage, etc, reach their markets faster, have flexibility in decision-making and reduce investments tied-up in fixed assets of material management with chain from Import to delivery at customer point. Whatever industry sector you operate in, Argus provides dedicated and shared warehousing services and distribution operations to ensure that you can deliver your service promise to your customers worldwide.

An American based certification agency representative when he came for the inspection of our warehouses' comments as follows;

“Lot of companies INVESTED in warehousing in the region. But ARGUS is the one which IMPLEMENTED the standards and constructed the platforms for the clients with different requirements at an affordable price”

Yes, We also believe that more than CONSTRUCTING warehouses without a view in the facilities for the clients, without incorporating modern technologies and without setting tariffs for different clients with different requirements will be a worthless exercise that not only useful for the client but the investor also.

ARGUS created the principles based on the ethics first then into the creation of facilities and that is why all most all clients once associated with ARGUS WAREHOUSING are still travelling with us in their journey of success along with us.

7. TRANSPORTATION

Argus serves you with the best extensive transport facilities and Door-to-Door services which offer solutions to our customers with advanced monitoring methods which take care of the entire shipping process. We have access to the equipment and capacity you need, no matter how exceptional your shipment is. Our professionals match your freight with the right vehicle and the right route, with the ability to restructure resources if conditions change. We drive the process from end-to-end while providing a custom solution to meet your needs.

We understand the importance of safe handling and timely delivery of shipments we provide required solutions in terms of speed, routing and types of loads carried. Based on your business need, our team can suggest the most effective and efficient shipment options available. Our service is our commitment to customers service and quality.

8. WHAT ARE THE DIFFERENCES IN BETWEEN ARGUS AND OTHERS IN THE WAREHOUSING BUSINESS ?

ARGUS WAREHOUSES are neither some square meters spread along nor the roofs without active representation. ARGUS maintains mega warehouse facilities with world-class standards as follows ;

- ◆ Certified warehouses from government agencies and different reputed international standardisation agencies
- ◆ Sophisticated lifting equipment with related technicians
- ◆ Highly effective rack systems that can compete with the world-famous Supply chain giants.
- ◆ Argus had implemented world recognised ERP software specially designed for Warehousing giants. The perfect barcoding systems and laser security systems are ensuring unwanted incidents such as Missing and wrong deliveries.
- ◆ Specially designed warehouse ramps that used for different purposes
- ◆ Enough frontage space in every warehouse to execute the lift on /lift off Works with even the 360 degree revolving excavator-loaders
- ◆ Argus is maintaining different facilities for different commodities. The general goods, goods that require temperature control, the goods that require special requirements Like dangerous goods, foodstuff and the goods that need deep-freezing facilities can be Accommodate in our different warehouses.
- ◆ We have a special wing for vehicle warehouse support. More than 2000 units of vehicles are coming through our warehouses specially designed for vehicle dealings. Our specialised employees who manage the vehicles without damage are the main attraction for this segment. Our lashing team who trained under the international automobile logistic organization always executes their works in an international standard that always appreciated from the famous car dealers of the world.

9. 3PL LOGISTICS

More than 50 companies from abroad deployed ARGUS for their third party logistics services. The aforesaid companies which have zero investment in the region are functioning all their works like storage, distribution to hypermarkets and camps, collection of payments and import process in support of ARGUS. They are generating profits without any efforts even without a single employee from their side. We can assume their success by understanding the increase in their volume of business in year by year. We are also handling the 3 PL requirements of a lot of domestic companies which trusted us. They are using our distribution facilities and stores that support their business.

10. RELOCATION SERVICES

ARGUS is maintaining a team with 15 employees specially trained for relocation activities. Different vehicles and lifts that suitable for medium to heavy loads are with us for managing any situation that required during the relocation services. Our associations with international relocation companies are a remarkable success only because of our dedication and consistent performance.

OUR TEAM

Customers choose Argus because they trust that we have the best people in the industry working on their business. The industry's brightest logistics engineers, safest drivers and the most experienced maintenance technicians are part of a passionate team all dedicated to solving your toughest transportation and supply chain challenges.
